→ vzporedni in parazdeljeni sistemi.

meta: omejitosti: projektna naloga -- tema bo
open-ended in stopnja za vse; dela se v
parih.

[sistemi s skupnim pomnilnikom (shared memory)]
uniform memory access / shared multiprocessor

Uniforma
pisanje stoji (ob write)
namesto
pisanje nazaj (dirty bit)

to ima veliko pravega do pisarju. dandanes
raji počnejo takole:

non-uniform memory access:
